A key player in the construction industry

Mateco-Hungary Ltd. is proudly celebrating 25 years of existence, during which we have played a prominent role in the successful implementation of almost every major construction project.

We offer high-quality machines with modern construction for rent and sale

Mateco Group's rental fleet comprises over 40.000 work platforms in more than 700 different designs, with 150 own locations in Europe and more than 80 strong partners worldwide; we pursue a clear goal: supply the best height access technology for our customers.

In Hungary, Mateco-Hungary Kft. has more than 2500 lifting equipments and working platforms for rental regardless of the country border.

The average age of our machines is only 3.5 years, so our customers can always work with modern, reliable, and safe equipment.
